And just FYI, the bird section is being resolved with Tim Kubiak of FWS and Chuck Nace (EPA's eco risk assessor) and the underwater sound piece was resolved with NJDEP and the National Marine Fisheries Service so although no public piece to those they were heavily weighed in on by multiple government agencies. Not sure if that helps or not but thought you should know.

Subject: Re: Final CHASP for the Passaic Removal for review

Thanks,

I don't see anything in here that would warrant another round of CAG review. Debbie, let me know what you think, it is pretty minor and simply reflecting final design. (I don't think we need to reach out to birds and underwater creatures as those are the only two new sections I can see).

Doug

Hi All.

Please see the below marked up version of what is hopefully the final CHASP. I'll be doing a cross-check of it against our previous comments, but was hoping you all could take one last look at it as well to let me know if you have any final thoughts so I can let them know of any changes necessary before I can approve this. I know it's last minute but if you could let me know by Thursday that would be fantastic and I'd really appreciate it. Otherwise, if you could get me something by Tuesday, the 27th at the latest that would be fine as well.

Thanks and hope you're all well,  
Elizabeth

Subject: Final CHASP

Elizabeth,

Attached is the final Community Health and Safety Plan revised per changes to the final removal design and ancillary documents (e.g., CQAP). Changes are highlighted in yellow. Highlighting was used instead of RLSO because of the special layout of this document. RLSO interferes a bit with the placement of figures, photos, and text boxes.

Please provide your final review and or approval of this document this week if possible. Production of the final design and approved ancillary documents will begin this week and continue next week with the goal of having everything done and shipped by September 30 or by the end of the first week in October, if necessary.

Regards,  
Kimberlee
